Screens faulty

Radiation still within medical limits...Turner

Although Minden residents having X-rays taken at the Minden Red Cross hospital may be subject to more radiation than necessary, the levels are still within safe medical limits, according to the executive director of the Red Cross Board in Toronto.

David Turner said in an exclusive telephone interview from Toronto, "The patients are receiving more radiation because of the screens, but it is still within the limits."

Apparently new screens will be installed in the X-ray machine and will then be tested to see if the situation is improved, he said.

Tests were conducted on the machinery earlier this month by Dr. Ken Taylor, associate director of the Radiological Research Laboratory of the University of Toronto. Dr. Taylor examined the X-ray unit at the hospital on July 6.

"In a preliminary report to

the Red Cross's Hospital executive director, David Turner, and Dr. Jeffrey Lodenquai, president of the Minden Hospital Medical Staff, Dr. Taylor indicated radiation levels emitted by the hospital X-ray unit were well within normal limits," Mr. Turner said in a prepared statement last week.

As a result, the hospital board and Dr. Lodenquai were relieved that patients could continue to obtain needed X-rays at the Minden hospital.

The report also calls for improvements to be made in the quality of X-rays presently being done and steps will be taken to allow additional X-rays to be possible, Mr. Turner explained.

According to Mr. Turner, Dr. Taylor has been requested "to proceed with carrying out tests related to these improvements as soon as

possible".

In keeping with a board program, which began several months ago, the X-ray unit in Minden was tested to review the machinery and upgrade it if necessary. Other hospital facilities, equipment programs and services were apparently checked for efficiency according to Mr. Turner.

More than a month ago, Minden Doctor Antony Holliday-Rhodes wrote to Mr. Turner outlining shortcomings in the X-ray unit at Minden.

He said at that time the portable X-ray unit produced inadequate results.

The doctor, who has extensive experience in radiology, also pointed out to the executive director that the nurses at Minden hospital needed further training in operating the X-ray equipment.

Backhand cut

With help from Dysart et al Reeve Murray Fearrey, left, Victoria Haliburton MPP John Eakins gives the ribbon his famous backhand twist and officially opened the Rail's End Station Gallery Saturday afternoon. The gallery in the old CNR railway station, will be a showcase for work by members of the Haliburton Highlands Guild of Fine Arts as well as travelling exhibitions. A report on the opening can be found on page six.

Lutterworth drops rate

The Township of Lutterworth lowered its mill rate for both residential and commercial and business property about two per cent this year.

While both elementary and secondary school levies increased, elementary: .014 mills and secondary: .012 mills, for residential and elementary: .015 mills and secondary: .013 mills for commercial and business

property, the overall mill rate dropped from last year.

This came about because the municipal mill rate was reduced according to clerk-treasurer Wayne Hughes.

The county levy remained identical to the 1978 figures.

This year's mill rate for residential is .748 mills while commercial and business mill rate is .846.

Last year the mill rate for residential property was .757

with commercial and business land at .858 mills.

In 1978, the mill rate for municipal purposes only was .223 for residential and .261 for commercial and business property, comparatively this year's figures are .188 for residential and .221 for commercial and business.

The overall mill rate took a drastic increase in 1978 because of a substantial

Total Wreck

Grenville Stamp, 46 of West Guilford, a popular Minden businessman was seriously injured when his car hit a dump truck and a tree

West Guilford man suffers neck injuries

A West Guilford man suffered serious neck and internal injuries after his car sideswiped a dump truck on a sharp corner of Highway 530 west of Maple Lake, Friday morning.

Grenville Stamp was taken to Minden Red cross Hospital but because of the seriousness

of his injuries he was flown by helicopter to Sunnybrook Hospital in Toronto.

Apparently Mr. Stamp, 46, was westbound when the vehicles collided and his car then smashed into a tree in the north ditch.

Ronald Bacon, 30 of R. R. 1 Haliburton, was driving a

Haliburton County dump truck when the accident occurred.

The 1979 car sustained \$11,000 damage while the truck was estimated with \$1,500 damage.

Investigation by Provincial Constable Reg Eveligh.

Guild Gallery Opens

A major milestone in the development of the Haliburton Guild of Fine Arts was witnessed Saturday by a substantial crowd of well-wishers. The Guild now has its own functional building which will provide office space, meeting rooms, and a gallery display area. Housed in Haliburton's restored Railway Station it has been named "Rails End Station Gallery." The building is a tribute to all the volunteers who worked so hard to make it a reality, and the political bodies who provided the necessary co-operation. The Gallery will hold ever changing exhibits of both local and worldly crafts of exceptional note. It is the only gallery of their type outside the metropolitan area. We recommend you visit it over and over again throughout the year.

The Guild is not finished raising money towards this worth while project yet, and to this end are holding an Auction Sale on Saturday August 4th at 10 a.m. They are still gathering items for this auction such as antiques, good used furniture, garden tools, skis, skates, dishes, toys, paintings, etc. Articles may be donated or placed on consignment at 20% commission. For further information call 457-2404 or 2330.

Sir Sam's Hosts Reception

On Saturday evening a regular parade of boats on Eagle Lake cruised in front of Sir Sam's Inn curiously observing the over flow crowd that had gathered to celebrate the opening of the gallery and pay homage to a number of Guild founding members. It has been many years since the Inn had shown this much activity and local cottagers could certainly be forgiven for wondering what in the world was happening.

New owner of the Inn James Orr proudly showed off the many changes they have made in the facilities to the guests and a beautiful buffet supper was served in the dining room and consumed on the spacious lawns and around the pool. The evening was highlighted with a presentation of the talented Guild of Fine Arts Choral Society.

A Haliburton Boat Cruise

Doug Russel of Muskoka Boat Tours is considering moving one of his big Cruise

Boats into the "centre" of the Haliburton Highlands next year. This is a 60 passenger boat complete with washrooms, stewardess and first mate, and would be a most welcome tourists attraction to our area.

In the meantime, in order to provide some service to our area this summer, Doug will run "Miss White Pine" out of Dorset every Thursday afternoon at 2 p.m. for a three hour cruise on Lake of Bays. The charge is \$6.00 for adults, and \$3.00 for children and departure is from the government dock at Dorset. "A Must" while in Haliburton.

Coming Events

The Canadian Legion are holding their annual Carnival this Wednesday, July 18th in Haliburton with a parade at 7 p.m. and a carnival and midway at the Community Centre.

In Wilberforce the now famous "Country Good Times" runs through this week-end. On Friday night there is a Beauty Contest, a Teen Dance and a Country and Western Jamboree. On Saturday events commence at 10 a.m. with the main features of the parade at 1:00 p.m. and two "Good Times" Balls at 9 p.m. Sunday starts off with a pancake breakfast at 9 a.m. and a brand new event this year at 11 a.m. — a "Pony Pull." This will be followed by the light and heavy class Horse Draws in the afternoon. There's something for everyone going on all the time — and the Good Times continue to win praise from all who attend — probably due to the abundant hospitality provided by the folks around Monmouth. They "Treat You Royally."

Summer Theatre, sponsored by the Guild of Fine Arts continues to feature offerings in honour of the Year of the Child and this Saturday, July 21st will present "Punchinello" at 8 p.m. at the Haliburton Secondary School.

Local businesses are reminded to get their floats prepared for any or all of the upcoming parades. Following the above mentioned Wilberforce and Legion parades we have Minden Carnival July 25th, Haliburton Carnival Aug. 2nd, Haliburton County Fair Aug. 11, and the Kinmount Fair Aug. 31st.

Couple mark 70th anniversary

70 years

Linda and Bert Mintz wait to greet friends and relatives at an open house Sunday in Kinmount. The couple celebrated their seventieth wedding anniversary July 12.

"Seventy years, it's been a long time," commented Linda Mintz as she sat in her rocking chair at the Kinmount Legion Hall Sunday afternoon waiting for guests to arrive. "Never once in all those years have we ever drifted apart. We never thought of wandering. Our marriage has been solid from the first day."

Linda Mintz and her husband Bert were guests of

honour at a reception Sunday on the occasion of their seventieth wedding anniversary. "Our strength has come from a shared faith in God," the wife of 70 years stated.

The couple were married July 12, 1909 at the Kinmount Baptist Church and lived all of their lives in Glamorgan Township.

Bert Mintz was one of a family of ten. A brother Merle

and sister Iva, Mrs. Ed Hadley, shared the celebrations with the couple. The other members of the family having passed on. Bert was a farmer and minister until he retired.

Linda Mintz, nee Switzer, came from a family of seven, Ada Windover, 92, the only surviving sister, was also in attendance Sunday.

In addition to the personal greetings the couple received from the many visitors to the Kinmount Legion Hall, congratulatory messages were also sent by Queen Elizabeth, Prime Minister Joe Clark, former Prime Minister John Diefenbaker, Ontario Premier William Davis, MP

Bill Scott, MPP John Eakins and Stuart Smith the leader of the Liberal party in Ontario.

Attending the celebrations Sunday were the couple's five surviving members of the family of seven, 17 grandchildren and 36 great-grandchildren. Many friends and distant relations also arrived to pay tribute to the couple.

Guests attended from Phoenix, Arizona; Toledo, Ohio; Herrin, Illinois; Hershey, Pennsylvania; Elkin, Maryland; Halifax; Niagara Falls; St. Catharines; Kitchener; Brampton; Toronto; Parry Sound; Orillia; Lindsay and surrounding area.

\$27,000 for
Lutterworth

A grant of \$27,000 for Lutterworth Township was one of fifteen Ontario Home Renewal Program (OHRP) grants announced by Housing Minister Claude Bennett last week.

According to a news release from that ministry the per capita grants are provided "to home owner-occupants to repair their houses to acceptable municipal standards."

Owner-occupants are eligible for grants up to \$7,500 to correct faulty

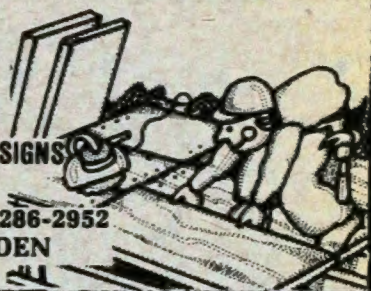

structural and sanitary conditions as well as improving plumbing, heating, insulation and electrical systems.

It is possible that a portion of the loan may be forgivable, depending on the home owner's income while interest rates may vary from zero to eight per cent.

Ten per cent of the grant will be used by the municipality for administration costs, Reeve Ron Gambell said last week.

Council asks MTC to lower speed limits

Anson, Hindon and Minden council are requesting Transportation and Communications Minister James Snow to review the possibility of lowering speed

limits around lakes, especially in the summer months. After receiving a 40-signature petition from residents near Twelve Mile Lake, council said it had its

hands tied as it could not lower the existing speed limit because of provincial legislation. Jack Weekes, armed with the petition, asked the council

to lower the speed limit to 15 mph or 25 kmh on Lake Shore Road. Unable to help, council pointed out that it could not decrease the limit below 35

mph because the area does not conform with provincial guidelines as it is not built-up enough. "The police can't enforce it if the speed limits are below provincial standards," explained Reeve Sinc Nesbitt.

Also, the reeve said council could ask the OPP to patrol the road more often in hopes of decreasing the number of offenders. One of Mr. Weekes' concerns arose from the fact

that the road runs between cottages and the lake. Pedestrians are constantly crossing the road during the summer, the spokesman pointed out. The reeve also suggested that the by-law enforcement officer might take a copy of the resolution and the petition to the police headquarters at Minden and ask for any recommendations they might have.

Kellett Family Re-Union

On June 16/79 the 1st Kellett re-union was held in Minden arena, with approx. 250 relatives present. Those gathered represented five generations dating back to George Kellett who settled on highway 121 south about 1840.

Members of the family were present from as far away as British Columbia, Alberta, Kingston, Ottawa, Cornwall, Noval, Hamilton, St. Catherines and Sudbury, along with our local families from Peterborough, Head Lake and Haliburton County.

The afternoon was mainly a social time with the children entertained with baseball and games. Some of the adults pitched a few horseshoes. Following supper, presentations were made to prominent members of the

family. Mrs. Irene McKelvey received a corsage for the oldest Kellett lady present. Peggy Kellett, the lady coming the furthest to the reunion from Merritt B.C. received a corsage. Boutinieres were presented to Myron Kellett from Alberta for the man coming the furthest and Jack Kellett of Toronto for the oldest Kellett man.

Kevin Kellett, son of Larry Kellett of Cargill was presented with a baby candle as the youngest member present. A committee was appointed to chair the 2nd reunion to be held in the Minden Arena next year on June 21, 1980.

No complaints about Rockcliffe noise

Since it received a partial exemption from the township by-law three weeks ago, the Rockcliffe Hotel has relocated the bands' speakers and has contacted the Ministry of the Environment with regard to recommending sound engineers to investigate the supposed noise problem.

Rockcliffe owner, Dave Willis, told Anson, Hindon and Minden council last Wednesday that the noise by-laws in the province are so new that the ministry has not yet compiled a list of qualified sound engineers.

Using a floor plan of the hotel he explained to council that he had turned the musicians' speakers into the back sections of the hotel in an effort to stop noise from

flowing out the front of the building. While by-law enforcement officer, Dick Schell, said there had been no complaints from citizens during the preceding week, Mr. Willis said that customers sitting in the front sections of the hotel were complaining that they could not hear the music.

Editorial

Export or import?

The implications of the energy measures announced Sunday by United States President Carter are bound to be felt here in Canada. Our economies are closely linked, our need for energy almost identical on a proportionate basis, and our aspirations for the future follow on similar lines.

Considering the sweeping measures announced by the president, it is time our own federal government took some initiative rather than expecting, or hoping, to benefit from the "spill-over" from the American program.

Just five years ago our federal government had an ideal opportunity to put this country in the forefront of renewable energy technology. At that time the western world was feeling the first pangs created by tightening oil supplies. With the OPEC oil embargo this country and others were jolted into the realization of just how dependent we are on foreign energy supplies.

It was then that the government in Ottawa should have announced incentives to private industry for the development of technology which would tap the energy of the sun, the wind, waves and the biosphere. And, if private industry wasn't up to the challenge, government research facilities should have been activated in the search.

Instead, in the intervening years, the government paid scant notice to the need to develop the technology, to nurture an industry that will soon be of prime concern to citizens around the world. Despite this attitude private and academic research into alternative energy sources has moved ahead, although with less vigor than if the federal government had added incentives.

If an all out effort had been started five years ago we feel the energy needs of our country would be well on the way to a solution which places a great deal of reliance on renewable resources. Not only would our energy sources be more secure, but this country would have been in on the ground floor of what is likely to be the growth industry of the 1980's.

However, with the measures announced by President Carter Sunday, the initiative has now shifted to the United States. The massive financial commitment and technical expertise of that nation will assure their dominance in the sphere of renewable energy technology.

Five years ago or more, this nation had an opportunity to become the world leader in alternate energy technology. That edge may now be lost, but we do have valuable contributions to make to this field. The federal government, provincial agencies, universities and other bodies should now make a concerted effort to ensure that Canada is a part of the alternate energy revolution which awaits us in the 1980's. Not only will such action ensure our future energy needs are more secure, it will also mean that Canada can become an exporter of technology and hardware, rather than an importer of costly oil.

REPORT FROM QUEEN'S PARK

By John Eakins, M.P.P.

In the past few years, a number of people in Victoria-Haliburton have contacted me regarding gravel pits and their rehabilitation. I am pleased to say that new legislation with more stringent operating and rehabilitation standards, as well as increased licence fees and rehabilitation security deposits paid by operators was introduced in the Ontario Legislature on June 14, 1979. The Aggregates Act (Bill 127) will replace Ontario's eight-year-old Pits and Quarries Control Act. Natural Resources Minister James Auld, in introducing the new bill, said the changes were recommended by a ministry-appointed working party which examined, among other things, rehabilitation of pits and quarries. He said the working party concluded that vague or general reference to rehabilitation in the present Act has resulted in insufficient rehabilitation work being carried out in some parts of the province.

The new Act has three purposes: (1) To provide for the management of the aggregate and Crown aggregate resources in Ontario; (2) To control and regulate pits and quarries,

wayside pits and quarries and Crown aggregate pits and quarries; (3) To require the rehabilitation of land from which aggregate of Crown aggregate has been excavated.

The working party also recommended that a rehabilitation security deposit paid to the province by pit and quarries operators to ensure funds are available to rehabilitate licensed sites be raised to eight cents per metric tonne of material extracted from the present two cents per imperial ton. Many features of the new Act are the result of experience gained over the years by the various interests

concerned with The Pits and Quarries Control Act. One such feature is an annual licence fee of six cents per tonne annually, four cents of which will go to the local municipality, one-half cent to the region or county, one-half cent toward the rehabilitation of old abandoned pits and quarries, and one cent to the province.

At the same time as the new legislation was being introduced, the minister released a separate study commissioned by the ministry which came to the same conclusion as the working party on inadequate

rehabilitation. The report, entitled "A Study of Pit and Quarry Rehabilitation in Southern Ontario", is based on examinations of 258 pits and quarries covering a 25,000-acre area in Brant and Wellington Counties and Durham, Halton and Peel Regions. Generally, the study concluded that much more specific information on methods and techniques of rehabilitation must be provided to the aggregate industry if government expects to receive further cooperation from operators.

I would appreciate your comments.

Mainstream Canada

Canada's new Minister of State for Small Business and Industry is just getting settled in his new Ottawa office but he's already taken a swipe at some of the country's corporate giants.

In a maiden speech following his cabinet appointment, Ronald Huntington expressed strong feelings about corporate concentration in the form of conglomerates.

In particular, he knocked the massive companies that "cover a wide and diversified interlocking of corporate activities."

New Minister Talks Tough

By W. Roger Worth

"Such giants can, and do, speed up the massing of capital into the hands of a few people, and that power can threaten the survival of our free enterprise, incentive oriented society," he said.

Harsh words indeed, but Huntington should know what he's talking about.

As a small businessman in British Columbia before entering politics, Huntington

founded two successful enterprises, one with sales of more than \$10 million per year.

In addition, as a Conservative back bench, he was responsible for the party's position regarding changes in Canada's competition policy, presently the weakest in the industrialized world.

The new minister points out that he's not simply against "bigness."

"Bigness to create economy of scale . . . within a specific activity of production, manufacture, or service, is a fact of life, and to do so is in the public interest," Huntington emphasizes.

He believes such activities are necessary if Canadian companies are to withstand the rigors of international competition.

The concern lies with those firms that seek power for the sake of power.

"It seems to me that every time we allow a particular group to have power, you can be certain it will find ways of multiplying in order to gain more power," he says.

The challenge, according to Huntington, is to find new ways to restore the basic incentive aspects of the small business world before the system itself is destroyed.

"I give that objective a very high priority," he adds.

Small business, it seems, has a concerned voice in the corridors of power, a minister prepared to fight for competition legislation that really counts.

Roger Worth is Director, Public Affairs, Canadian Federation of Independent Business.

Letter to the Editor

Editor:

It is nice to be able to walk on good ground around the Bethel Rd. and Horseshoe Lake bridge swimming area again. The nice fence and the work completed greatly improved that special place.

It is special to us as we were raised around there and Grandpa James Nesbitt and his wife Margaret helped to build Bethel church. We always went to Horseshoe to swim as a family or to Kashagawigamog.

I'm so glad to see that something was done to improve the safety of the popular swimming spot.

Now all it needs is to be sodded and to have a couple of nice-sized maple trees planted for shade, and also two picnic tables. It's God's country, so let's appreciate the clean water and all.

May God bless everyone who helped with the work.

Mrs. Bernard Sage
Lindsay, Ont.

Ed's Note: Since the writing of this letter the land around the swimming area has been sodded.

Point of View

Ontario Minister of Natural Resources James Auld has been criticized by NDP MPP David Warner regarding the safety of abandoned pits and quarries. According to Warner, his private member's bill has received the support of numerous communities throughout the province including Anson, Hindon and Minden, Stanhope and Cardiff Townships.

The following report from Warner outlines his concern with regard to the safety of abandoned pits.

"I am bitterly disappointed that James Auld, the Minister of Natural Resources, has ignored the safety problems posed by abandoned pits and quarries.

"His new bill (no. 127), likely to be debated this fall, does not mention the safety of abandoned pits or quarries. The bill does allow the Minister to rehabilitate an abandoned pit or quarry but only if the owner of the land agrees! The Minister must be asking for the same problem the City of Ottawa has been

grappling with for over a year. A drowning and a legal suit by the city has not convinced the developer to enact appropriate safety measures.

"The answer to the problem is clear. My private member's bill, previously no. 185, now no. 5, needs to be adopted. Such is the opinion of at least 137 cities, towns, municipalities, etc., across Ontario.

"The coroner's jury verdict of September 26, 1978 on the

Dancers fiddle away weekend

Finishing with a flourish, one of the many young competitors, left, in the Haliburton Fiddle and Step Dancing contest flashes a broad smile in the direction of the judges. The contest was held this past weekend at the Haliburton Curling Club with entrants and observers coming from throughout southern Ontario for the event.

The judges, right, give an act a critical appraisal as the program continued Saturday afternoon. Judging for the event were, from the left, Carman Peters, Don White and Harold Broadhagen.

And, while the judges judged, Harold's dog Peach Pie found all the activity just too tiring. She curled up on the cool cement and went to sleep right under the table.

One thing about fitness, you can tell the players without the program.

PARTICIPATION

two good water years have resulted from a combination of factors, not the least of which has been the weather. The cooler, wetter springs which have resulted in our not needing to draw reservoir water till late in June, have

continued on page 6

Trent Severn Waterway News

Water Control

On July 9th, the storage water percentage in Haliburton Reservoir Lakes stood at 90% for a drop of about 3% from the week before.

Kawartha evaporation was nearly equalled by precipitation for a net loss of only one centimetre over the week. Hotter summer weather last week has resulted in greater losses.

Flows were increased

somewhat this week above the minimum from the reservoirs due to the hotter weather. At the same time, Otonabee River flows have been reduced from the Kawarthas, as the effect of the rain over the July 1st week-end subsided.

Reservoir storage depletion is following the same decline and virtually the same amount remains at this date (July 13th) as in 1978. These

Point of View

continued from page 4

drowning of Todd Rosler made the recommendation that owners be responsible for filling-in programs. The Foundation for Aggregate Studies says that the provincial government "should force the industry to clean up its hazards".

"There are literally hundreds of abandoned pits and quarries throughout the province. Many of them are

dangerous.

"I intend to amend the government bill so as to implement the safety provisions of my own private member's bill.

"I am most grateful for the widespread support which I have received so far and urge all Members of the Assembly to support my "safety amendment" this fall."

Cyril Feir, a former conductor on the Canadian National Railway when it served the Haliburton area donned his uniform Saturday for the opening of the Rail's End Station Gallery. The railroad employee was introduced to the audience by Dysart et al Reeve Murray Fearrey.

Station gallery opened

Years of planning and months of hard work came to fruition Saturday afternoon as the ceremonial ribbon at the entrance to the Rail's End Station Gallery in Haliburton was cut. Local MPP John Eakins officiated at the ribbon cutting assisted by Dysart et al Reeve Murray Fearrey.

A large crowd of supporters was on hand for the opening despite the heat and humidity of the afternoon.

The members of the Haliburton Highlands Guild of Fine Arts, and in particular Carole Finn were praised for their efforts in bringing the gallery into existence. The group had secured the former railway station from Canadian National Railways and carried out extensive renovations and repairs. The gallery maintains the railway motif with the platform stretching along the one side providing an excellent area for outdoor displays.

The Guild received financial assistance from the local and provincial governments with a great deal of support coming from a Wintario grant.

A spokesman for the firm which was in charge of the renovations, Mr. Coleman explained the importance of the structure in terms of local history. He praised the Guild for making the effort to preserve the structure.

The spokesman noted that the station marked the end of a rail line that stretched from Whitby to Haliburton. He pointed out that the rail line was to have reached the Ottawa valley, but the

developers halted construction at Haliburton. The rail link had been constructed to speed the influx of settlers who had purchased property from the Canada Land Development Company.

Following the ribbon cutting those in attendance were invited to tour the new structure.

Annual dinner

Saturday evening over 200 people gathered at Sir Sam's Inn for the annual dinner of the Guild. Following the meal

the group was entertained by the members of the Guild Choral Society.

Guild president Mary Wallace also paid tribute to a number of members who had been instrumental when the organization was first starting ten years ago. Presented with honorary memberships to the Guild were Jan Augusteijn, Karl Manke, Ron McCaw, Bruce Mills, Doug Hodgson, Ron Curry, Thilde Nevitt, Mary Macaulay.

Navigation channel improvements at Atherley Narrows

The contract for improvements to the navigation channel at Atherley Narrows has recently been awarded to Sub-Services Ltd. Work will begin shortly, for completion in this navigation season.

Safer and roomier passage for boats will result at this busy through-route for craft moving between Lakes Simcoe and Couchiching. Rock piles and submerged wood piles will be removed. Concrete abutments from a former swing bridge will be removed, as well as a rock abutment from a previous rail crossing of the Narrows.

The Narrows have been extensively surveyed prior to the work starting to identify and plot the jumble of old piers and piles left over from a succession of swing and trestle bridges (as well as docks and piers) dating back to the days of rail and steam navigation on the lakes in the early 19th Century. The Narrows was also the site of a major fishing weir complex used for centuries by native peoples. In fact, Atherley is one of the two largest and earliest sites of weir fishing in North America. The other site is now under landfill in the Back Bay district of Boston.

"Mighty fine shootin' Partner"

The gunslingers from the old west would probably have turned tail and run if they had seen some of the fine shooting at the first competition held by the Haliburton County Marksmanship Club at the new shooting range just north of Minden last Sunday.

In the high power rifle class, Garry Brademore was by far the most outstanding competitor.

In the trap shoot, Scott Young, Jim Schlosser, Art Nye, Garry Brademore, Harold Parcell and Charlie Muli came out on top, accepting chickens for their efforts.

In the .22 rifle event, Boyd Jarvis, Terry Allore, Jeff Lodenquai and Jim Schlosser were named the winners.

Providing all the range facilities and organization of the day's competition were Ron MacKenzie and Charlie Muli.

The next competition will be held July 29 at 5 p.m. with trap shooting and .22 rifle events on the schedule.

There will be no charge or prizes at this event with competitors being asked to bring their own .22 ammunition but shot gun shells will be provided at cost.

Good shot

Garry Brademore came up as one of the top shooters of the day.

Haliburton ladies defeat Wilberforce in close game

Haliburton ladies are still in first place but they just narrowly escaped defeat last week when Wilberforce came out in strong force only to be disappointed with a 18-17 loss. The game was played Tuesday night.

It was an exciting game with both teams fighting hard throughout the seven innings.

Faye Schonhofer and Nancy Maughan combined for the win while Judy Faul and Susan Rowbotten took the loss.

The same night, Bonnie Stevens, Laurel Austen and Cheryl Nichols led West Guilford to a 9-1 victory over Carnarvon.

Nancy Brink was the winner while Belinda Brown took the loss at the mound.

The next night, Haliburton seemed to get all the breaks when the ladies downed Minden 10-6.

Sheila Elston and Betty Whiteway were strong players for Haliburton while Marlaine Wilson hit a home run for Minden.

Nancy Maughan chalked up another win while Anne Hewson was the losing pitcher.

Wednesday West Guilford beat out Wilberforce with a 9-6 score.

Jennifer Mueller and Bonnie Stevens gave West Guilford a helping hand while Lynne Storey had a good night for Wilberforce.

Nancy Brink added another win to her credit while Judy Faul took the loss.

Also on Wednesday night in Snowdon, the Snowdon ladies lost out again for their thirteenth straight loss this season.

Haliburton was the winning team with Faye Schonhofer on the mound with Audrey Vick pitching for Snowdon.

Although it didn't seem to matter that the score tallied 21-12, Colleen Bacon and Lyn McElwain both had a good night at the plate for Snowdon.

Minden travelled to Carnarvon Thursday night with Minden finally breaking the close game wide open in the fifth inning for a 16-8 score.

In the fifth, three Mindenites, Helen Burk, Marlaine Wilson and Joan Paul, all came up with triples.

Also, Lyn Winans had a perfect night at the plate for Minden, batting four for four.

Anne Hewson came up with the win for Minden while Marg Darby was the losing pitcher.

Bahamas, anyone?

Want to take your favorite person to the Bahamas this fall?

Well, if that's the case, buy a ticket from any ladies baseball league member and you'll be half way there.

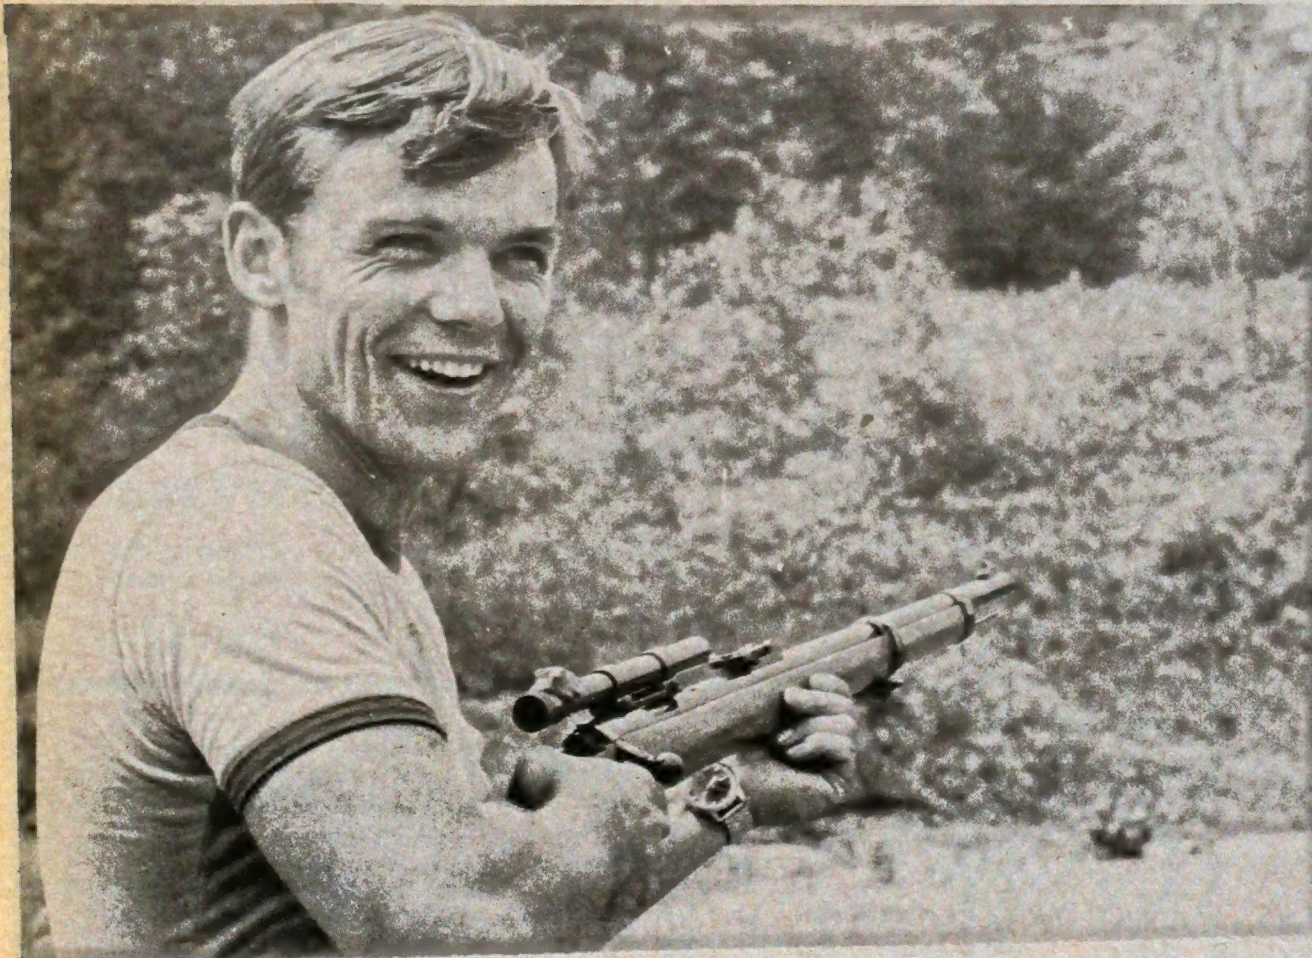

The winning ticket will be drawn at the banquet in October. But don't be discouraged if your schedule doesn't allow you to take the trip, it will be possible to get the cash value of the prize.

It didn't take as long to aim the second time around as this shooter quickly eyes up his mark.

Candid Camera

Boyd Jarvis takes a break for a laugh as he gets ready to compete in the .22 rifle competition.

Merchants take 2, drop 1

The Minden Merchants won two and lost one in the week's Tri-County Men's Softball action.

July 11 the local squad went down to a 3-1 defeat at the hands of the Lindsay Merchants. Dale Stinson was

the winning pitcher with Jack Snell taking the loss.

The team sought and gained sweet revenge Thursday evening in Lindsay as they took a 3-2 decision from the home squad. The game stretched to nine innings

before the Minden team could capture the winning run. The victory went to Snell, with Stinson the losing pitcher.

Monday of this week the Merchants doubled on the Bobcaygeon Brewers taking home an 8-4 victory. The

winning pitcher was Rick Hartwick while Sid Higgins took the loss.

The Merchants see action tonight at 8 p.m. at the Minden ball diamond when they face the Lindsay Juniors.

Belleville team takes Harcourt championship

Belleville Intelligencer's softball team came out on top of 13 other teams at the Harcourt Fun Fair last weekend.

While the Intelligencers were named champions, the Mount Albert Team won the consolation title.

The first game of the meet began with Harcourt facing Dunsford but the hometeam was defeated 4-3. Dunsford then moved on to play

Bancroft IGA but were downed 4-1.

The Bancroft team had previously beaten Minden's hopefuls 4-2.

Fenelon Falls met with Tweed, who edged in nicely with a 2-1 score.

Next on the schedule were the mighty Belleville Intelligencers who came up against Huntsville with a 4-3 win.

The Intelligencers then met the Bancroft IGA and

skunked them 3-0 moving the Belleville team into the championship match.

The Belleville Doctors played against Mount Albert and headed on with a 4-2 victory.

Then West Eagle met Oshawa but was quickly ousted into the consolation rounds by a 5-0 loss.

Another outlandish defeat was sustained by Havelock who was shut out by London

11-0.

The Belleville Doctors then met Oshawa and took control of the game with a final score of 10-2.

They then played against London and came up with a 6-3 win putting them in the championship match with the other Belleville team.

Unfortunately for the Doctors, the Intelligencers came up with a 6-4 victory.

In the consolation round, Mount Albert came out on top of Harcourt 10-1 for the trophy.

Before the consolation match Harcourt had downed Huntsville, 6-0, and Minden

3-2.

Mount Albert had likewise defeated Havelock 6-0 and West Eagle.

Ron McCoy, of Belleville Intelligencers was named the most valuable player while Bernie Olzswski, of Harcourt Lumberkings was picked as the best sportsman.

Ouch

Havelock and London players gather around as a Havelock player is injured while making a play for the ball.

Nice bunt

A London player makes one of the nicest bunts of the day.

Another WRIGHTMAN sale

WRIGHTMAN REALTY sales representative Dick Kinsman, centre, looks on as the keys to Foster's Shell on Boshkung Lake pass from the old owners to the new proprietors. Jim and Helen Mifflin, left, purchased the gas bar and grocery store from Jim and Pearl Foster at the beginning of the summer season. "We look forward to serving old customers and making new friends," Jim and Helen commented as the exchange of keys took place. The store is located three miles north of Carnarvon on Highway 35.

Bulging biceps at Rotary Carnival

The world championship of arm wrestling will be held in Minden next week as one of the main highlights of the rotary Club's annual summer carnival. The competition will be part of the program at the

beer garden and dance Thursday evening at the community centre.

The arm wrestling competition, which is jointly sponsored by Carling-O'Keefe and the Rotary Club,

will feature various weight classifications and a special category for ladies. Entry forms for the competition are available from various locations in the community. The grunting and groaning

of arm wrestling is just one of the many activities to fill the busy two-day carnival. Once again this year the Rotary club has used the Pioneer Days theme for the event and participants are invited to

dress in period costumes to help set the atmosphere.

The excitement starts Wednesday when area merchants will move their merchandise out into the street for a sidewalk sale. This will continue on Thursday as well.

A giant parade will be held featuring marching bands and floats from throughout the area taking part. The parade takes place Wednesday

evening at 6:30, following the usual route through town to the arena.

Other events during the carnival include a turkey bingo Tuesday evening, a midway at the arena, dances nightly and a draw for \$1000 cash.

A complete schedule of events is included with this week's edition of The Times. See the centre pages for more information.

Paddlers race on the Gull

Once again this year the S.F. Stinson Memorial Canoe Race will be held along the Gull River between Rotary Park and the bridge in Minden. The event is scheduled for July 25 and will begin at 6:30 p.m.

The race is an annual event which is sponsored by Dr. D.

A. Stinson of Toronto. It is held in memory of S. F. Stinson who owned and operated a saw mill and grist mill where the Orillia Power Dam is now located just east of Minden.

Canoes for the race must be at least 16 feet long, canvas

covered or fibreglass. Those canoes of the racing shell type will not be permitted. While entries from camps are invited, only two entries per camp will be allowed.

Competitors are advised to take a few practise runs along

the river as an advantage can be attained by those utilizing the currents.

Entrants should be in attendance at the Rotary Park well before the start of the event for pre-race instructions.

5 mile road race returns

For the eighth year runners will be testing their endurance in the five mile Heineken Yard foot race slated for July 26. This annual event has been growing in popularity over the past few years with increasing numbers of runners taking part.

The five mile race will follow the same course as previous years, starting at the Onondaga Camp gates and

proceeding to Minden along the Gull River Road. The finish line this year will be at the Rockcliffe Hotel.

Race organizer Ian Sainsbury describes the course as being over "gravel and soft asphalt, on rolling terrain." Ian has led the race for three of its past seven years. The best time for the race was registered in 1977 when Wayne Rosen covered

the course in 23:21:25. Wayne also led in 1978.

There is no fee for this event, but runners must register in advance. The competition begins at 4 p.m. with special divisions for lady runners. Registration will take place next Wednesday (July 25) at the Rockcliffe

Hotel, or on the day of the race at the Onondaga Camp gate.

Prizes will be awarded to the first ten finishers with special awards to those in the top three positions. Special draws and other prizes will also be available for competitors.

AROUND THE TOWN

by Jeanne Sears

A reminder to those wishing to suggest where they would like the Women's Institute Bus trip this fall, please phone Rheta Brown, Mary Cox or Irene Moore, any day this week, if you have an idea.

Debby and Tony Vanschdel, who are holidaying at Balsam Lake Park, visited her grandparents Mr. and Mrs. Taylor Kernohan, one day last week.

Mr. and Mrs. Tom Bunker and family of Timmins are enjoying a vacation with his parents Mr. and Mrs. Mervin Bunker.

Grant Porter of Victoria and Roy Rivers of Kingston have been on leave with their parents.

All his friends send good wishes to Grenville Stamp who was injured in a serious accident late last week.

The Gordon Monks enjoyed a week "away from it all", at their cottage, last week.

Mrs. James Beattie is away this week, visiting relatives in Toronto.

Visiting the Boyd Jarvis' are Jane and Pete Lancaster of Harrowgate, Leeds, England. Hope they enjoy their two week holiday.

Congratulations to Jean and Alfred Bluett who celebrated their 50th wedding anniversary last weekend.

New arrivals are a baby boy for Patti and Bill Dennison and a baby girl for Sharon and Jim Walker.

Mr. and Mrs. William Carrell Sr., have been visiting their son and his family, the Bill Carrells.

The 25th of July will be a busy one, as the Rotary Carnival goes on, and the Parade is that evening. But there will be sales going on then as well. The Horticultural Society will have a plant, vegetable and bake sale and the U.C.W. will have a bazaar, and bake sale that afternoon, both on the Bank of Commerce corner. There will be others on the Main Street as well.

The Library-Museum sale will be by Candlewood at the bridge, and they hope to have baking there, as well as a white elephant table (items may be left at Minden Library).

Dr. Jamieson will have the painting which she donated on display with tickets on sale

for the raffle on July 28. Sounds like a busy time.

On July 21 the ACW fair will be held at St. Paul's Parish Hall, with bake sale starting at 10 a.m. The Tea Room will open at noon with a tea cup reader. There will also be games for the children including a dunking tank. There will be a Chinese auction with some articles being a small stereo, a portable typewriter and a battery-operated clock. The thrift shop will be open

upstairs and draw will be made on their grand quilt.

Also the week of July 23-27th will be the book sale at the Library office Haliburton from 10-4; these books are duplicates and library discards.

Don't forget the Museum Mobile is to be here Thursday July 19 near the firehall with an archaeological display from 2-5 and 7-9.

Damages five boats and light post

After damaging five boats and a light standard a car, driven by a Minden man, finally came to a standstill last Friday night.

Leslie Alton, 49, was

headed south on Highway 35 when his car drove into Moore Lake Marina's parking lot and collided with a boat. Damage to that boat was estimated at \$550.

Then, the boat was pushed into three others causing more than \$6,400 damage.

Still in motion the car then struck a light standard which jarred the top and it broke off, falling onto the fifth boat. The

light caused about \$300 damage to the boat.

Alton's 1971 car sustained \$1,300 damage.

Investigation by Provincial Constable Al Barnes.

Trapped by hydro lines
A West Hill man was taken

to Lindsay hospital with back injuries after three hydro crews rescued him from his wire entangled car.

John Shields was westbound on Mountain St in Haliburton early last Sunday morning when his car hit a hydro pole and the wires fell down around it.

Damage to the hydro pole, lines, Bell Canada lines and cable TV lines are as yet unknown.

The 1978 station wagon received an estimated \$2,000 damage.

Investigation by Provincial Constable Al Barnes.

Car rolls

A Toronto man received minor injuries when he lost control of his car and it rolled in the north ditch along highway 121, west of county road no. 3, last Saturday night.

The 1979 car sustained \$8,000 damage.

Investigation by Provincial Constable Weldon Popp.

Minor injury

A Greenbank man was travelling north on Highway 35, south of Minden, when his car veered into the west ditch, rolled over, then came to a standstill.

James Doyle, 34, received minor injuries in the early Thursday morning accident while his 1973 car sustained

\$1,500 damage.

Investigation by Provincial Constable Reg Eveligh.

Hits rock cut

A Scarborough woman was uninjured when she lost control of her car on the north shoulder of the road and it hit a rock cut in the south ditch last Saturday evening on Highway 121, east of Minden.

Roberta Whitby, 18, was westbound when the accident occurred. The 1975 station wagon sustained \$1,200 damage.

No driver

A pick-up truck jumped out of gear by itself and rolled down a hill, then struck a tree last Saturday on a private cottage road in Minden township.

The 1976 truck, owned by Terrance Davis, of Bowmanville, received a damage estimate of \$1,500.

Investigation by Provincial Constable Weldon Popp.

Hits fire hydrant, then tree

A Scarborough man was driving down South Water St., in Minden, early last Sunday morning when his car went onto the east shoulder, struck a fire hydrant and then a 20 foot spruce tree.

Douglas McEachern, 21, was unharmed but the 1978 car suffered \$5,000 damage.

Investigation by Provincial Constable Bob Pearson.

Mill rate

continued from page 1

increase in the board of education levy, Mr. Hughes said on Monday.

In 1977 the overall rate stood at .696 for residential and .792 for commercial and business while 1978 figures were .757 and .858.

By comparison the combined board of education figures were .372 for residential and .411 for commercial and business property while 1978 increase gave a total of .435 mills and .482 mills for the education levy.

The county levy also increased slightly in 1978 but not significantly enough to greatly effect the mill rate, the clerk pointed out.

During those two years the general municipal mill rate was also lowered. For residential property it was lowered about .007 mills and for commercial and business land the decrease was .010 mills.

New constituent office

The Lindsay Constituency office, for John Eakins MPP for Victoria-Haliburton, has a new home.

Because the Greg-Mac building is facing demolition, the office has been moved to the main floor of the O'Reilly building at 1 Russell St. E., Lindsay.

The staff of the office say that while their address has changed the phone number, (705) 324-6654, will remain the same.

Equine at opening

A friendly face and sparkling jewelry made this horse and his teammate a popular pair at the Rail's End Station Gallery opening Saturday in Haliburton.

SENIOR LEAGUE

by Linda English

The week began with the temperatures going to the high 70's, and fortunately continued all week. Many residents enjoyed the nice change in the weather and took advantage by getting outside. Monday morning we had fun and fitness where we sang

songs, exercised and played games.

In the afternoon the ladies made themselves busy in the craft room. The time for the bazaar is drawing very near and everyone is working hard preparing and putting on the finishing touches. The bazaar is

being held Wednesday, July 18 from 2 to 4 in the afternoon and we hope to have a good turnout.

Tuesday morning Doris Robertson took the service in the chapel. Doris called the numbers for a Bingo game in the main lounge in the afternoon.

Wednesday we had our regular fun and fitness program in the morning, and crafts in the afternoon.

Thursday, July 12 was very special for Carrie Jones who celebrated her birthday. She was presented with a birthday cake and

everyone joined together to sing Happy Birthday to Carrie.

We had a very enjoyable afternoon on Thursday when the Gospel Lighthouse Ladies from Haliburton brought a lovely assortment of cookies and squares for the tea party. They introduced to us their new minister, Rev. Mervin Kertz, and his wife, who sang two duets for us and led in some spiritual singing.

Everyone enjoyed their singing and are looking forward to worshipping with Rev. Kertz in the chapel.

continued on page 17.

Around the Town

continued from page 12

Master Chris Calin of Guelph is visiting his grandparents, Chris and Ed Pergolas.

Saturday, July 28th there will be the art show at Hyland Crest Auditorium after 1 - come and see the display and have a cup of tea. Draw will be made on painting donated by Dr. A. Jamieson.

On July 16 at Municipal Hall over 50 little people and

some parents enjoyed the Deckhands Puppet Show. Commentator was Ivy Cheng and other two were Don Ekon and Lyn Royce - all from Peterborough.

They presented "The monkey who stole the Parrot's egg" and "Rosered and Snow White".

Hot and humid but great at the lakes.

Cheerio until next time.

Minden library culture centre news

by Dr. Agnes Jamieson

Three Cheers! The necessary form to request a Wintario Capital Grant toward a feasibility study for the proposed culture centre has arrived. The Ministry of Culture and Recreation require such a study prior to considering requests for Wintario assistance.

On July 17 members of the Committee went to Peterborough to discuss details with Miss Brenda Couch, the

Ministry's area consultant, and with Mr. Johnston, of Nichol, Rheims and Johnston, who will be doing the feasibility study.

Under study will be area population, nearness to a

similar facility, the appropriateness of the site, the type of structure, operational responsibility, affordability and Community participation are of prime concern. In other words - do we need it; do we

want it; can we afford it?

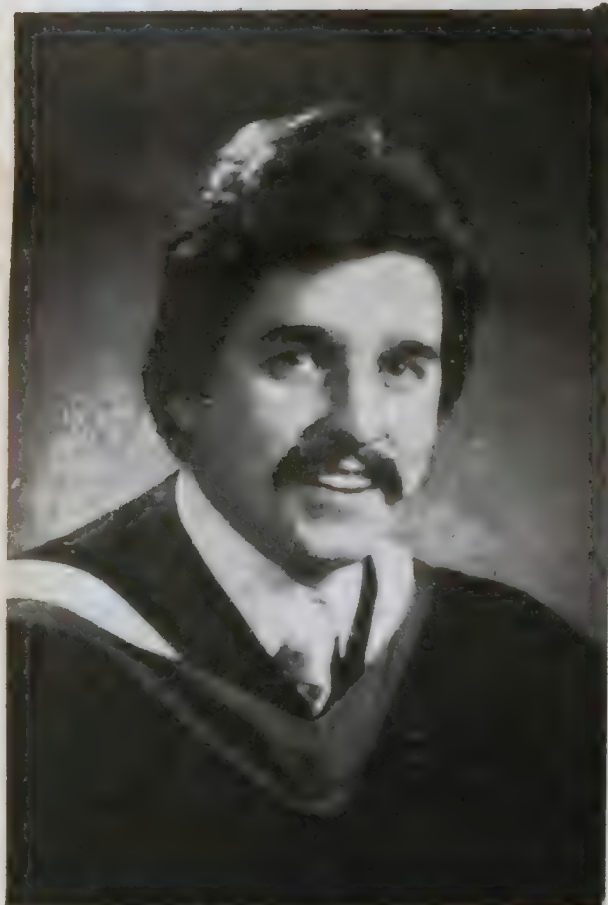

The proposed centre will be economically housed under one roof. It should prove a much needed cultural attraction for both the old and the young.

The proposed site is across the road from both the public school and the senior citizen's apartments. The senior citizens in this area number twice the provincial average. This building should add to their enjoyment and should be a worthwhile tourist attraction.

In June the Library Culture Committee held a successful dance. Presently they offer raffle tickets on a quilt and oil painting. The draw for the quilt will be at the time of the Minden Fair. The draw for the oil painting will be at the Art show sponsored by the Centre at the Highland Crest Senior Citizens home, 1-5 p.m. Saturday, July 28. Why not join your friends for a cup of tea and a cookie and enjoy 40 art paintings before they are sold? The paintings are largely the work of Dr. H. W. Vaughan, who is contributing 25% of the sale toward the proposed Centre. Tickets - adults \$1.00.

At the Minden Rotary Carnival, July 25th, the centre will have a booth in front of the Candlewood shop. Tickets will also be for sale there.

Those interested in promoting a new library and cultural resources in this vicinity meet in the council chamber the first Monday of every month. Why not come out?

Graduation

Michael Alan Trepanier, son of Mr. and Mrs. Bernard Trepanier of Minden, graduated from Fanshaw College of Applied Arts and Technology on June 21st, 1979, with a diploma in Heating, Refrigeration and Air Conditioning Engineering Technology. Al is now employed as an Applications Engineer with Johnson Controls Limited, in Toronto.

FARM NEWS & VIEWS

Proper land drainage can increase profits

Proper drainage is one of the most important requisites of a productive soil and is an appropriate topic any time of the year. For soils that are not well drained naturally, we should be thinking seriously of installing an adequate tile drainage system.

There are three basic ways in which drainage promotes better plant growth. First, plants must have air and specifically oxygen in the soil because the roots of plants breathe. If the soil is wet, then the space normally occupied by air is filled with water. In the absence of air, the roots will not grow and the roots already present do not function properly. This is the most important effect of poor drainage.

Second, a wet soil is a cold soil. There is no mystery to this fact. We know that it takes 5 times as much heat to warm up water as it takes to warm up soil. Therefore, the warming process is slower in a wet soil. This is not the only problem. The major way of getting rid of excess soil moisture is by evaporation and large quantities of heat are wasted in the evaporation

process. The heat used in evaporating water is not available to warm the soil. The third advantage is from its effect on plant food release by the soil. This is very important with Nitrogen but it also applies to phosphorus. The soil bacteria which cause nitrogen and phosphorus to be released for plant use are also dependent on air in the soil. We see this as a yellowing of the leaves under poor drainage conditions.

Another effect of poor drainage is a poorer soil structure - in other words a soil more difficult or impossible to work into a good seed bed.

There are also several related effects of drainage which are also significant.

- Poor drainage is fatal to some of our over-winter crops.

- Plants suffer less from drought where drainage is good. This may seem like a contradiction but it is true. Crops seeded in wet land try to keep their roots out of water and near the soil surface. Then along comes a dry period and the moisture line goes down faster than the roots and the plants are left stranded with a shallow root

system in dry soil.

If you have drainage problems on your farm, consider tiling.

The Family Brown

Popular television and recording group, The Family Brown, will be appearing at the Wilberforce Arena August 4 at a dance sponsored by the Algonquin Kinsmen. Billed as one of the most travelled country and western groups in Canada, The Family Brown has visited most parts of the country, including the Northwest Territories. While the group appears under the name The Family Brown, only four of the six members are actually related. Members of the group include Joe Brown, Barry Brown, Lawanda Brown, Tracey Brown, Ron Sparling, and Dave Dennison.

Central committee for adoption of 'boat people'

With many other churches and service clubs expressing interest, The Minden United Church has called a meeting

to set up a central committee to organize the 'adoption' of a family of boat people, according to Rev. Douglas

Millar of Minden. "After Thursday night this church won't be spearheading the project, we'll be

handing the project over to a central committee," he said in a telephone interview Monday.

The meeting is slated for Thursday at 7:30 p.m. in the United Church in Minden.

Also expressing interest are both the Minden Rotary and Kinsmen Clubs, Our Lady of Fatima Roman Catholic Church, the Minden Gospel Church, the United Church of Norland and the United Church of Cobocok, Rev.

Millar said.

"We are an ecumenical group working with organizations outside of Haliburton County," Rev. Millar said.

On Monday the unofficial tally of money donated stood over the \$3,000 mark. Rev. Millar had previously suggested that about \$6,000 would be needed to support the family.

When the family, escaping

from the communists in Viet Nam, arrives in the area, it will be completely looked after by the fund that will be set up. The members of the family will be helped to adjust to Canadian society and will eventually be trained in Canadian skills to support themselves, said the minister. A family has not yet been chosen as the project is still in the formulative stages.

Large crowd

The opening of the Rail's End Station Gallery Saturday in Haliburton drew a large crowd. Following the official ribbon cutting by MPP John Eakins, the crowd toured the structure.

DO'S AND DON'TS FOR SUN WORSHIPPERS — Avoiding Sunburn and Other Hot Weather Ills

By Christina Sclanders

Remember when bathing costumes covered one from neck to knee and included hats and shoes, and even in the heat of summer ladies wore hats and gloves and carried parasols? Maybe that wasn't as ridiculous as it seems today.

Did you know that even if you stay in the water all day you can still get sunburned and that excessive, repeated exposure to the sun can age the skin prematurely causing roughening, thickening and wrinkling and may even cause skin cancer?

If you want to acquire a healthy tan without getting sunburned or suffering heat related illness, here are some tips to follow.

Suburn

Since prevention is better than cure do get your tan gradually. Spend no more than 15 minutes in the sun the first day, increasing exposure five to 10 minutes

daily thereafter. The sun's ultraviolet rays are strongest between 10 a.m. and 2 p.m. so avoid prolonged exposure during those hours.

Remember too that you can get sunburned on a cloudy day. Ultraviolet rays can penetrate cloud cover, haze or fog. They can also penetrate water. Reflected light from sand (and in winter from snow) can also burn.

Minor sunburn is red and painful. Immersion in cold water can ease the pain and even prevent blistering. Compresses soaked in cold water can be applied if immersion is not convenient. An application of Histocaine ointment will accomplish the same thing. If extensive blistering occurs do not break the blisters. Cover the area and get medical aid.

Once you've acquired a tan and avoided a sunburn, protect your skin from too much additional exposure, particularly during the midday hours.

There are two other dangers related to over-exposure to the sun or intense heat and both of them require medical attention.

Heat Exhaustion

Symptoms for this are weakness, dizziness, stupor and headache. The skin is pale and moist and the casualty perspires profusely. He or she should rest in a

cool place with feet elevated.

Heat Stroke

This is an extremely serious condition and the patient should receive medical aid as soon as possible. It differs from heat exhaustion in that the skin is hot, flushed and dry instead of pale and moist. Temporary measures are putting the patient in a cool place, sprinkling with water and fanning and ap-

plication of cool compresses or ice packs to reduce the high temperature.

The elderly and the obese are particularly vulnerable to heat exhaustion and heat stroke. They should wear loose fitting clothing, avoid excessive exercise, avoid alcoholic indulgence and maintain good nutrition during extremely hot summer weather.

Campground reports available

Following last year's success, privately run campgrounds in Ontario will be listed again by the Ontario Ministry of Industry and Tourism campground vacancy reporting program.

By calling the ministry's travel centres on Fridays or Saturdays starting June 29 and throughout the summer, campers will have up-to-the-

minute information on vacancies in both provincially and privately operated campgrounds. The program is a co-operative venture between the ministry and the Ontario Private Campground Association.

All campgrounds in Ontario from the North Bay area south will be covered. Individual campers can

call the ministry's travel centres in Sarnia at (519) 344-7403; Windsor (519) 252-8368; Barrie (705) 726-0932 or call collect the ministry's travel centre in Toronto at (416) 965-4008 from Monday to Saturday.

Exclusive media numbers for the campsite vacancy reports are (705) 726-1356 and -1357.

Senior League

continued from page 13

Friday morning we had a very good turnout to fun and fitness. Everyone was in good voice when we sang our "Good Morning" songs and enjoyed a game of kick the ball.

Mrs. Grace Coburn led the sing song later in the afternoon.

Remember, folks, if you're eating lots of watermelons and citron etc. Mrs. Deuma would sure appreciate it, if you would save those seeds for her. Also, if anyone uses Leggs pantyhose, we would like to have the containers. We make cute little bazaar items with them in Crafts.
